

Instructions for printing brochure

The brochure template is set up for litho printing that can be used to print a large number of copies (<1,000).

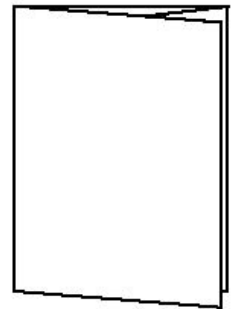

1. Take the "EAFM brochure spreads" to a printing house that has an offset printer.
2. The document is printed on one large sheet of paper 150 gram thickness, and roll folded to 6 A4 pages.
(see photo below).
3. Print the E-EAFM and LEAD flyers and include them inside the brochure.
